SEWER BEST PRACTICES

Know Your System

- Annual Manhole Inspections
- Map and Locate Equipment
- Know the Location of all Manholes

Maintain Your System

- Cleaning and TV on a Schedule
- Follow your SSMP
- Address Problem Areas

Train and Certify Your Operators

Make a Plan

- System Specific SSMP
- Backup Response Plan
- Use Preferred Providers
- Require Businesses and Restaurants to Implement Appropriate Controls

Review Incidents

- Take Action on the Root Causes
- Sewer Use Guidelines for Homeowners
